

## INVESTMENT POLICY

Date Adopted by Governing Body: September 2015

Date Approved by Resources Committee

Anticipated review September 2016

### PRINCIPLES

The academy aims to manage its cash balances to provide for the day-to-day working capital requirements of its operations, whilst protecting the real long-term value of any surplus cash balances against inflation. In addition, the academy aims to invest surplus cash funds to optimise returns, but ensuring the investment instruments are such that there is no risk to the loss of these cash funds. Our aim is to spend the public monies with which we are entrusted for the direct education benefit of students as soon as is prudent. The school does not consider the investment of surplus funds as a primary activity, rather it is the result of good stewardship as and when circumstances allow.

### PURPOSES

- To ensure adequate cash balances are maintained in the current account to cover day-to-day working capital requirements
- To ensure there is no risk of loss in the capital value of any cash funds invested • To protect the capital value of any invested funds against inflation
- To optimise returns on invested funds

### GUIDELINES

- Regular cash flows are to be prepared and monitored to ensure there are adequate liquid funds to meet all payroll related commitments and outstanding supply creditors that are due for payment.
- Where the cash flow identifies a base level of cash funds that will be surplus to requirements these may be invested in an interest bearing may be invested in Treasury account in a UK regulated bank for a maximum of 32 days.
- Where the surplus is deemed to be significant and long-term, funds may be invested in Treasury deposits, with maturity dates which do not result in the cash funds being unavailable for longer than 12 weeks upon agreement of the Governing Body.
